

FINCA · BADENES

Variety native to Aragon and very widespread also in the Balearic Islands.

On the palate, it is an extra virgin olive oil with sweet tones, which bring us to a sensation of nuts such as almonds and hazelnuts. It has a medium stability and a high content of polyphenols, as well as oleic acid.

EMPELTRE VARIETY

It is a variety of medium vigour, rustic and adaptable to the cold winters typical of the area.

Productive capacity is constant and high. Easy mechanical harvesting as the long and medium weight of the fruit is easily detached from the tree.
